Modern cars are more computerized than ever. Infotainment and navigation systems, Wi-Fi, automatic software updates, and other innovations aim to make driving more convenient. But vehicle technologies haven't kept pace with today's more hostile security environment, leaving millions vulnerable to attack. The Car Hacker's Handbook will give you a deeper understanding of the computer systems and embedded software in modern vehicles. It begins by examining vulnerabilities and providing detailed explanations of communications over the CAN bus and between devices and systems. Then, once you have an understanding of a vehicle's communication network, you'll learn how to intercept data and perform specific hacks to track vehicles, unlock doors, glitch engines, flood communication, and more. With a focus on low-cost, open source hacking tools such as Metasploit, Wireshark, Kayak, can-utils, and ChipWhisperer, The Car Hacker's Handbook will show you how to:

- Build an accurate threat model for your vehicle
- Reverse engineer the CAN bus to fake engine signals
- Exploit vulnerabilities in diagnostic and data-logging systems
- Hack the ECU and other firmware and embedded systems
- Feed exploits through infotainment and vehicle-to-vehicle communication systems
- Override factory settings with performance-tuning techniques
- Build physical and virtual test benches to try out exploits safely

If you're curious about automotive security and have the urge to hack a two-ton computer, make The Car Hacker's Handbook your first stop.

Providing a comprehensive overview of hot stamping (also known as 'press hardening'), this book examines all essential aspects of this innovative metal forming method, and explores its various uses. It investigates hot stamping from both technological and business perspectives, and outlines potential future developments. Individual chapters explore topics such as the history of hot stamping, the state of the art, materials and processes employed, and how hot stamping is currently being used in the automotive industry to create ultra-high-strength steel components. Drawing on experience and expertise gathered from academia and industry worldwide, the book offers an accessible resource for a broad readership including students, researchers, vehicle manufacturers and metal forming companies.

"A detailed chronology of developmental milestones drives this life study of pandas, including their habitats, physical features, and conservation measures taken to protect these black-and-white bears"--

Craving the Future provides radically new perspectives and useful tools for anyone seeking to create a better future. Author and Innovation Executive Michael Perman provides insights from extensive research on how to transform our deepest desires into new, bold, innovative realities. His research reveals fascinating new dimensions to the way culture shapes the

concept of craving. Specifically, he has discovered that what people crave in their lives is changing from urgent demands for things like cigarettes, coffee, or even tacos, to more meaningful quests for new sensations and purpose. Craving the Future offers imaginative ideas, methodical tools, and inspiring profiles of innovation luminaries—all mindfully crafted to help you shape what is coming next. The book also features a unique design that makes it delightful to experience, easy to digest, and fun to share.

Based on tests conducted by Consumers Union, this guide rates new cars based on performance, handling, comfort, convenience, reliability, and fuel economy, and includes advice on options and safety statistics.

Don't these boys get it? How many times must they get into trouble before they catch on? Best friends William and Thomas are back at it again with even more action and adventure. The poor community of Itchygooney isn't safe when William has a plan. This time there's an attack drone, a ghostly rocking chair, a slam-dunking wizard, and a UFO. Will these boys ever be stopped? Let's hope not! Back 4 More is the fourth book in the ongoing I Told You So series of humorous stories shared in short standalone bursts. If they were any longer you couldn't handle it!

Classic investment guidance for everyone As Chairman and CEO of one of the most respected mutual fund companies in the world, The Vanguard Group, Jack Brennan has made a career out of helping people invest for long-term success. In Straight Talk on Investing, he cuts to the chase and provides readers with sound advice and solid guidance to investing for today and tomorrow, in a bull market or bear market. Starting with a clear explanation of the financial facts of life, Brennan explains that investing is a lot easier than most people think. He shows readers how to develop a financial plan, construct and manage a sensible investment program, and maintain perspective in a sometimes crazy world. Refreshing in its simplicity and honesty, Straight Talk on Investing is a badly needed tonic to the hangover of the bull market of the 1990s. Filled with meaningful guidance for investors from a leading investment luminary, this invaluable resource will help readers make better investment decisions and restore financial faith in themselves, so they can confidently navigate the markets toward their financial goals. Jack Brennan (Wayne, PA) is the Chairman and CEO of The Vanguard Group, the world's second-largest mutual fund company, with \$600 billion in assets under management and 15 million shareholder accounts. Mr. Brennan is a frequent guest on financial news programs and is regularly quoted in leading business and personal finance publications, including The Wall Street Journal and The New York Times. In 2000 and 2001, SmartMoney ranked him as one of the most influential individuals in investing. Marta McCave (Wayne, PA) is a senior financial writer for The Vanguard Group and a former journalist. She was a founding member of the national reporting staff of USA Today and was a contributor to a number of newspapers and magazines before joining Vanguard.

Twelve Years a Slave (1853) is a memoir and slave narrative by Solomon Northup, as told to and edited by David Wilson. Northup, a black man who was born free in New York, details his kidnapping in Washington, D.C. and subsequent sale into slavery. After having been kept in bondage for 12 years in Louisiana by various masters, Northup was able to write to friends and family in New York, who were in turn able to secure his release. Northup's account provides extensive details on the slave markets in Washington, D.C. and New Orleans and describes at length cotton and sugar cultivation on major plantations in Louisiana.
