David MacRitchie (16 April 1851 - 14 January 1925) was a Scottish folklorist and antiquarian. He argued that "the unidentified builders of our stone-circles, cairns, and dolmens, were dark-skinned people."

David Reich describes how the revolution in the ability to sequence ancient DNA has changed our understanding of the deep human past. This book tells the emerging story of our often surprising ancestry - the extraordinary ancient migrations and mixtures of populations that have made us who we are.
