Collective political projects have become ephemeral and are subject to radical forms of erasure through cooptation, division, redefinition or intimidation in present times. Media and Utopia responds to the resulting crisis of the social by investigating the links between mediation and political imagination. This volume addresses those utopian spaces historically constituted through media, and analyses the conditions that made them possible. Individual essays deal with non-Western histories of technopolitics through distinctive perspectives on how to conceive the relationship between social form, everyday life, and utopian possibility, and by examining a range of media formats and genres from print, sound, and film to new media. With contributions from major scholars in the field, this book will be of interest to researchers and scholars of media studies, culture studies, sociology, modern South Asian history, and politics.

Practising Journalism brings together experts from the field of journalism: journalists; freelance writers; lectures; and media practitioners to provide a comprehensive collection of current articles. Offering a unique view of the way journalism is both practiced and taught, this book is divided into four section: core values in journalism; specialisation within the craft; the constraints of practice and implications for the future. It covers areas including: gender and identity in the popular press; sports journalism; urban reporting; embedded journalism; censorship; and alternative media. This book is essential reading for students of journalism and all those considering a career in the field.

Original text, modern Tamil, and English translations of Tirukkural, ancient Tamil didactic verse work, by Tiruvalluvar, Tamil poet.

Attacks on the press in 1998: a worldwide survey / preface by Roger Rosenblatt.

The Press in India had been a powerful force since its inception. It not only influenced the minds of the people but has also remained a guiding star in the lives of succeeding generations. During the Colonial era, journals and newspapers started and managed by the nationalist Indians rattled British authorities and forced them to introduce stringent measures against the Press, particularly against the Vernacular Press. Many a time, journals and newspapers were to face proscription from the imperial authorities, as fiery articles, they feared, would push the nation into great chaos. Such was the power of the Press. Since no journalist organisation in Chennai had all the documents related to the study, I made use of websites of different organisations, newspapers and magazines. However, a large chunk of information was culled out from the documents preserved in the office of the Madras Union of Journalists. I profusely thank its office bearers for permitting me the access. But for their help, the task of documentation and study would have been more strenuous. As indicated elsewhere in this book, the splits in journalist's unions has split their office records also. Hence a yawning gap is noticed in the history of different unions in Chennai. Some organisations have only limited records in the form of their constitution, occasional newsletters or handouts.
