Exploring Science is an activity led course set in relevant contexts that develops the key skills necessary for success in Integrated Science. This book covers the syllabus requirements of the National Standard Curriculum for Grade 8 Integrated Science. Exploring Science is an activity led course set in relevant contexts that develops the key skills necessary for success in Integrated Science. This book covers the syllabus requirements of the National Standard Curriculum for Grade 8 Integrated Science. Developed and written specifically for Jamaica Science in practice projects in many of the Units provide opportunities to carry out Science, Technology, Engineering and Mathematics (STEM) activities Check your understanding sections at the end of each topic allow teachers and students to assess their progress End-of-unit questions to check that students have understood the ideas in each Unit Write-in workbook provides opportunities for homework and supports students with revision

Goyal Brothers Prakashan

Exploring Science has evolved to meet the advancing needs of today's science lessons. The student's book is now combined with a CD-ROM. The CD-ROM contains an ActiveBook (a digital version of the student book), fully blended with an extensive range of interactive multimedia resources.

Useful for the first three years of Secondary school, this is a three book series. It provides an introduction to the world of Science and is a helpful foundation for CXC separate sciences and CXC single award Integrated Science. Written in clear English, it is suitable for a range of abilities.

Goyal Brothers Prakashan

Goyal Brothers Prakashan

The material in this book forms the basis of an interdisciplinary, college-level course, which uses science fiction film as a vehicle for exploring science concepts. Unlike traditional introductory-level courses, the science content is arranged according to major themes in science fiction, with a deliberate progression from the highly objective and discipline-specific (e.g. Reference Frames; Physics of Space Travel and Time Travel) to the very multi-disciplinary and thought-provoking (e.g. Human Teleportation; Science and Society). Over 100 references to science fiction films and television episodes are included, spanning more than 100 years of cinematic history. Some of these are conducive to calculations (solutions included).

Primary Exploring Science Teacher Guides provide comprehensive support for teachers and teaching assistants, saving you time and giving you a helping hand with planning.

I Explore A Science Textbook for Class 1 comprehensively provides all the materials required for effective learning of the different elementary aspects of science. I Explore is an eight-level series of textbooks in science. As envisaged in the National Curriculum Framework (2005) guidelines, these books have been designed to present science as a living body of knowledge where students are encouraged and guided to make exploratory forays of their own. Book 8 conforms strictly to latest NCERT syllabus specifications for science at the middle school level. Care has been taken to inculcate scientific aptitude in students through a variety of exercises and activities and to enhance their investigative and analytical ability. Tasks and exercises have been incorporated to facilitate Continuous and Comprehensive Assessment (CIE).
