It's the rule-always watch your fives and twenty-fives. When a convoy halts to investigate a possible roadside bomb, stay in the vehicle and scan five meters in every direction. A bomb inside five meters cuts through the armor, killing everyone in the truck. Once clear, get out and sweep twenty-five meters. A bomb inside twenty-five meters kills the dismounted scouts investigating the road ahead. Fives and twenty-fives mark the measure of a marine's life in the road repair platoon. Dispatched to fill potholes on the highways of Iraq, the platoon works to assure safe passage for citizens and military personnel. Their mission lacks the glory of the infantry, but in a war where every pothole contains a hidden bomb, road repair brings its own danger. Lieutenant Donovan leads the platoon, painfully aware of his shortcomings and isolated by his rank. Doc Pleasant, the medic, joined for opportunity, but finds his pride undone as he watches friends die. And there's Kateb, known to the Americans as Dodge, an Iraqi interpreter whose love of American culture-from hip-hop to the dog-eared copy of Huck Finn he carries-is matched only by his disdain for what Americans are doing to his country. Returning home, they exchange one set of decisions and repercussions for another, struggling to find a place in a world that no longer knows them. A debut both transcendent and rooted in the flesh, *Fives and Twenty-Fives* is a deeply necessary novel.

A provocative novel about the fallout from a search for truth by the author of the national bestseller *The Lifeboat*. For Maggie Rayburn -- wife, mother, and secretary at a munitions plant -- life is pleasant, predictable, and, she assumes, secure. When she finds proof of a high-level cover-up on her boss's desk, she impulsively takes it, an act that turns her world, and her worldview, upside down. Propelled by a desire to do good -- and also by a newfound taste for excitement -- Maggie starts to see injustice everywhere. Soon her bottom drawer is filled with what she calls "evidence," her small town has turned against her, and she must decide how far she will go for the truth. For Penn Sinclair -- Army Captain, Ivy League graduate, and reluctant heir to his family's fortune -- a hasty decision has disastrous results. Home from Iraq and eager to atone, he reunites with three survivors to expose the truth about the war. They launch a website that soon has people talking, but the more they expose, the cloudier their mission becomes. Now and Again is a blazingly original novel about the interconnectedness of lives, the limits of knowledge, and the consequences of doing the right thing.

It is the early months of the Arab Spring, 2011. But for three young men, two American and one Iraqi, their minds return again and again to 2006, to the bloodiest stretch of the Iraq War. Members of the same platoon, they were tasked with the often deadly job of repairing potholes in the roads of the Al Anbar Province: potholes that almost always concealed a home-made bomb. They have survived the war but now they must learn to live with themselves. As they struggle to find their place in a world that no longer knows them, they realise that the war has left nothing in their lives untouched and that salvation may come from an unexpected quarter.

"After two helicopters in a sister squadron are shot down, a U.S. Special Forces unit operating in Afghanistan is sent deep into insurgent territory to find and destroy a mysterious new organization called Al Ayeelaa."--

Best friends separated by global events after college, Mickey Montauk and Halifax Corderoy keep in touch with one another by editing a Wikipedia article about themselves.

The Good Lieutenant literally starts with a bang as an operation led by Lieutenant Emma Fowler of the Twenty-seventh Infantry Battalion goes spectacularly wrong. Men are dead--one, a young Iraqi, by her hand. Others were soldiers in her platoon. And the signals officer, Dixon Pulowski. Pulowski is another story entirely--Fowler and Pulowski had been lovers since they met at Fort Riley in Kansas. From this conflagration, The Good Lieutenant unspools backward in time as Fowler and her platoon are guided into disaster by suspicious informants and questionable intelligence, their very mission the result of a previous snafu in which a soldier had been kidnapped by insurgents. And then even further back, before things began to go so wrong, we see the backstory unfold from points of view that usually are not shown in war coverage--a female frontline officer, for one, but also jaded career soldiers and Iraqis both innocent and not so innocent. Ultimately, as all these stories unravel, what is revealed is what happens when good intentions destroy, experience distorts, and survival becomes everything. Brilliantly told and expertly captured by a terrific writer at the top of his form, Whitney Terrell's *The Good Lieutenant* is a gripping, insightful, necessary novel about a war that is proving to be the defining tragedy of our time.

Fobbit \fä-bit\, noun. Definition: A U.S. soldier stationed at a Forward Operating Base who avoids combat by remaining at the base, esp. during Operation Iraqi Freedom (2003-2011). Pejorative. In the satirical tradition of *Catch-22* and *M*A*S*H*, Fobbit takes us into the chaotic world of Baghdad's Forward Operating Base Triumph. The Forward Operating base, or FOB, is like the back-office of the battlefield – where people eat and sleep, and where a lot of soldiers have what looks suspiciously like a desk job. Male and female soldiers are trying to find an empty Porta Potty in which to get acquainted, grunts are playing Xbox and watching NASCAR between missions, and a lot of the senior staff are more concerned about getting to the chow hall in time for the Friday night all-you-can-eat seafood special than worrying about little things like military strategy. Darkly humorous and based on the author's own experiences in Iraq, Fobbit is a fantastic debut that shows us a behind-the-scenes portrait of the real Iraq war.

A brilliant, boundary-leaping debut novel tracing twelve-year-old genius map maker T.S. Spivet's attempts to understand the ways of the world When twelve-year-old genius cartographer T.S. Spivet receives an unexpected phone call from the Smithsonian announcing he has won the prestigious Baird Award, life as normal-if you consider mapping family dinner table conversation normal-is interrupted and a wild cross-country adventure begins, taking T.S. from his family ranch just north of Divide, Montana, to the museum's hallowed halls. T.S. sets out alone, leaving before dawn with a plan to hop a freight train and hobo east. Once aboard, his adventures step into high gear and he meticulously maps, charts, and illustrates his exploits, documenting mythical wormholes in the Midwest, the urban phenomenon of "rims," and the pleasures of McDonald's, among other things. We come to see the world through T.S.'s eyes and in his thorough investigation of the outside world he also reveals himself. As he travels away from the ranch and his family we learn how the journey also brings him closer to home. A secret family history found within his luggage tells the story of T.S.'s ancestors and their long-ago passage west, offering profound insight into the family he left behind and his role within it. As T.S. reads he discovers the sometimes shadowy boundary between fact and fiction and realizes that, for all his analytical rigor, the world around him is a mystery. All that he has learned is tested when he arrives at the capital to claim his prize and is welcomed into science's inner circle. For all its shine, fame seems more highly valued than ideas in this new world and friends are hard to find. T.S.'s trip begins at the Copper Top Ranch and the last known place he stands is Washington, D.C., but his journey's movement is far harder to track: How do you map the delicate lessons learned about family and self? How do you depict how it feels to first venture out on your own? Is there a definitive way to communicate the ebbs and tides of heartbreak, loss, loneliness, love? These are the questions that strike at the core of this very special debut. Now a major motion picture directed by Jean-Pierre Jeunet and starring Kyle Catlett and Helena Bonham Carter.
