This new edition of the best-selling job-hunting book of all time should be your essential companion if you are looking for a job. Dealing with the whole process, from creating an outstanding CV and answering the most dreaded interview questions to negotiating a salary, it is suitable for job-seekers at any stage of their career. Great Answers to Tough Interview Questions is full of examples of tough questions that interviewers like to throw at you, showing you how to answer them in a way that will advance your application and help you to secure your dream job. It also offers advice on exploiting the hidden job market, using headhunters, networking, succeeding in telephone interviews, dressing for success, body language, securing a job offer, following up rejections and dealing with multiple offers.

The book contains 256 questions and answers for job interview for hiring onshore drilling rigs.

Petrogav International provides courses for participants that intend to work on offshore drilling and production platforms. Training courses are taught by professionals from the oil and gas industry with current knowledge and years of field experience. The participants will get all the necessary competencies to work on the offshore drilling platforms and on the offshore production platforms. It is intended also for non-drilling and non-production personnel who work in drilling, exploration and production industry. This includes marine and logistics personnel, accounting, administrative and support staff, environmental professionals, etc. This course provides a non-technical overview of the phases, operations and terminology used on offshore oil and gas platforms. It is intended also for non-production personnel who work in the offshore drilling, exploration and production industry. This includes marine and logistics personnel, accounting, administrative and support staff, environmental professionals, etc. No prior experience or knowledge of drilling operations is required. This course will provide participants a better understanding of the issues faced in all aspects of production operations, with a particular focus on the unique aspects of offshore operations.
