Nothing says summer like driving a convertible. The car without a roof has always been a symbol for luxury and laissez-faire. And it still holds true today: everybody who's anybody drives "topless." The larger four-seater convertibles in particular have always been highly sought after--but they are difficult to build and have usually been made as coup é s for this reason. Mercedes-Benz has always been a pioneer in this area. 'Mercedes-Benz: The Grand Cabrios & Coupes' gives us a peek at the long-standing partnership between Mercedes-Benz and Stuttgart-based photographer, Rene Staud. Carefully staged photos show graceful curves and precision down to the finest

details that convey the company's dedication to a very special kind of driving pleasure. This volume presents the most important convertibles and related coupes from 100 years of Daimler automotive history. A special highlight is Daimler's new flagship, a convertible based on the new S-class that is being rolled out at the 2015 IAS. Even though summer eventually comes to an end, and sunny days can give way to showers, this book stands for everlasting convertible adventures. AUTHOR: Photographer Rene Staud made a breakthrough with the development of his Magicflash lighting technology; this type of surface lighting helps him greatly in his ad photos for top-shelf automakers. Staud and his team continue to develop new ways to meet the highest demands of the industry in both creativity and service. He has amassed 35 years of experience in ad photography; and has literally built the image of many

As the 1990s began, competition from rivals was threatening the Mercedes-Benz marque's position at the top of the automotive tree. Through a combination of audacious diversification and sometimes less-than-successful cost-cutting, Mercedes began a turnaround that would not achieve final success until the middle of the following decade. This book charts these turbulent years when the marque struggled to come to terms with a changing world.

- A thrilling photographic account of the treasure trove of cars kept by the Mercedes-Benz Museum in Stuttgart that are not currently on display to the public. The Mercedes-Benz Museum in Stuttgart is one of the largest and most visited industrial museums in the world. But the 160 or so automobiles on display are only a small part of the shiny chrome treasures that form the Mercedes-Benz Classic vehicle collection. Another 1,000 historical models are 'parked' in secret places outside Stuttgart - these secret places are called the 'Holy Halls'. This collection is the treasure trove of the brand. It has existed since 1923 and offers a comprehensive overview of the model history of Mercedes-Benz. Cars with special technology and equipment are stored here, as are the silver arrows of Caracciola, Lang and Fangio, the Pope's carriages, the state cars of the young Federal Republic of

Germany or Mercedes models that became collectors' items due to their prominent previous owners. Some of these exhibits are well protected and waiting in special wooden boxes for their next use at exhibitions, fairs, events or classic car races. Others stand next to each other as silent witnesses of the past. Each time a model is modified, the collection is extended by the last vehicle of the discontinued series, which experts believe will be one of tomorrow's classic cars. The 'Holy Halls' are not open to the public; enquiries from editorial offices and TV teams have often been rejected. But, during the years 2016 to 2018, almost all the vehicles of the Mercedes collection were photographed. Thus, a unique photographic collection was created, the automobile history from more than ten decades; many of the previously unpublished photographs are exclusively available here in this book. In addition,

Mercedes-Benz Classic agreed to open the 'Holy Halls' for an external photo team and provide information about the car models stored there. For the first time, it has been possible to produce a fascinating illustrated book with panoramic and detailed shots from the 'halls', and lively photo reports on cars that tell stories - from the first Benz battling motor car to the latest Formula 1 racing car. Equally thrilling are the stories of the unique specimens and prototypes that are stored in the 'Holy Halls': Mercedes models that never went into production are presented for the first time. The stories about the selected automobiles of the vehicle collection are supplemented by historical recordings from the Mercedes-Benz Classic archive.
