The volume aims at providing a comprehensive review of the diverse efforts covering the gap existing between the two main perspectives on the topic of ontologies for multi-agent systems, namely: How ontologies should be modelled and represented in order to be effectively used in agent systems, and on the other hand, what kind of capabilities should be exhibited by an agent in order to make use of ontological knowledge and to perform efficient reasoning with it. The volume collects the most significant papers of the AAMAS 2002 and AAMAS 2003 workshop on ontologies for agent systems, and the EKAW 2002 workshop on ontologies for multi-agent systems.

Since its introduction, the Skyline GT-R has been the undeniable king of the tuner CAR world. This book explains why. Along with an overview of Skylines since their debut in 1957, Author Alex Gorodji gives in-depth reviews of the last four generations of GT-Rs, including the new-for-2008 V35 – the first iteration of the car to be sold in the U.S. Paying special attention to technical aspects such as the all-wheel steering and drive systems, the chassis, and the legendary six-cylinder twin-turbocharged engine, his work explains the GT-R to those who already admire the car, and to those who wonder what the excitement is all about.
