"In his startling and thought-provoking book, *The Human Superorganism*, Rodney Dietert shatters the conventional view of the human body by confronting the reality that most of the cells in our body are not our own. The book explains how an imbalance in the microbiotic ecosystem of our body has caused a sharp increase in allergies and other non-communicable diseases in modern life, and it offers practical advice for fortifying and cohabiting productively with our single-celled partners."
