The Effects of Junk Food Free Essay Example

Junk food is a pejorative term for food containing high levels of calories from sugar or fat with little protein, vitamins or minerals. Use of the term implies that a particular food has little "nutritional value" and contains excessive fat, sugar, salt, and calories. Junk food can also refer to high protein food containing large amounts of meat prepared with, for example, too much unhealthy saturated fat; [citation needed] many hamburger outlets, fried chicken outlets and the like supply ...

This is your body on fast food - The Washington Post
In the article "Study: Junk Food Laws May Help Curb Kid's Obesity," AP Medical Writer Indies Tanner reports that a new study shows that states which enforce stricter junk food laws have a lower childhood obesity rate. The study showed that fifth through eighth graders in states with stricter laws gained less weight than their peers in states without the laws. Additionally, kids who were obese in fifth grade were more likely to reach a healthy weight by eighth grade in states with strict ...
