Go on a 60-year ride with Harley-Davidson's Sportster Things got a little weird in the American motorcycle industry after World War II. People hungered for new motorcycles, buying just about everything manufacturers could build. But on rare occasions a manufacturer produced a machine that nobody wanted. Such was the case with the Harley-Davidson Model K. The Model K had most of the features buyers wanted in a modern machine, like hand-operated clutches, foot-operated shifters, and cool-running aluminum heads, but it lacked perhaps the most important technological upgrade: a modern overhead-valve valve-train design. The Model K retained the antiquated side-valve design because of arcane AMA racing rules written when Harley-Davidson and Indian competed head-to-head on American racetracks, but by 1952 Indian was on its last legs. This should have made the Model K a massive sales success. What nobody counted on was the British bike invasion. Thanks to their modern overhead-valve engines, the lightweight British bikes humiliated the side-valve Harleys on the track and on the street. Upgrades to the Model K didn't help; Harley finally relented and introduced a new overhead-valve middleweight for the 1957 model year. Dubbed the Sportster, it was everything the Model K was not. More importantly, it was faster than the British competition. Thus began the Sportster's sixty-year reign. Harley-Davidson Sportster: Sixty Years tells the complete Sportster story. Noted Sportster expert Allen Girdler covers all the bikes--the XLCH, Caf_ Racer, XR1000, XLX, 883, Iron, Forty-Eight, Seventy-Two, and Nightster--that have made the Sportster one of the most iconic motorcycles on earth.

A handsome, informative overview of Harley Davidson's 100 plus years of style and innovation.

In Biker Chicz of North America, Edward Winterhalter and Wil De Clercq have compiled in-depth profiles of twenty-two fascinating women who ride Harley-Davidson motorcycles. Each chapter features an individual whose life story is compelling, intriguing, fascinating, and inspirational. While each woman featured in this book is unique and extraordinary in her own right, there are, not surprisingly, certain attributes they all have in common. In addition to being avowed motorcycle riders they live to ride and ride to live they are successful, intelligent, freethinking, adventurous, creative, inspiring, and tenacious. They are women who have followed their dreams and dared to live life on their own terms. All are survivors who boldly took on challenges that many of us men or women would find daunting. Some of them came by their success easily, others by triumphing over adversity. Despite their common traits, most are as different as night and day. Some are introverted, others extroverted; some are family oriented, others are loners. They ll be the first to admit, however, that without their Harleys, they would not be who they are today. Their beloved motorcycles are what defines them and what sets them apart from their nonriding sisters.
