Using Manual Lens On Pentax

It's been a long time since I was using manual lenses on Pentax, and in my memory, it just used to work correctly with my old K-r and K-x, but maybe that was just faulty memory. Thanks again, Jim 05-02-2017, 08:13 PM #8: chunkiness. Senior Member. Join Date: Apr 2017. Location: Central California. Posts ...

Using manual lenses with K-S2? - PentaxForums.com

- if you are using a manual focus lens (or an AF lens in manual mode) you can half-press the shutter to do a focus confirm. The little focusing lights will beep if/when they are in focus. So you hold the half-press (or the back AF button if you are using it) as you turn the focus ring, you will get the lights & beep when your subject is in focus.

Using a Manual Focus Lens on the K-1 - PentaxForums.com

Using pentax manual lens on K3 When attaching any of my old manual focus lenses to the K3 and then turning it on, the focal length screen fails to appear and "input focal length" is not available in the menu either.

Using pentax manual lens on K3 - PentaxForums.com

I have no experience with the Pentax digital SLR system, although presumably many of the issues and concepts involved with using manual focus Nikon lenses on DSLRs will be the same for Pentax users. All manual focus Nikkors are what we now call FX lenses – they were designed for use with 35mm film, and produce an image circle that will cover the “full frame” sensor of FX DSLRs.

Using Manual Focus Lenses on Nikon DSLR Cameras

History. Takumar brand lenses were supplied with Pentax cameras from the late 1950s until the mid 1970s using the M42 (Pentax) Screwmount.Asahi Optical soon began supplying lenses using the Pentax name from 1975, when they introduced the bayonet (K) mount, although Takumar-branded M42 screw lenses continued to be available new for a period.

Pentax (lens) - Wikipedia

I have a few quality Pentax K-mount lenses (f2.8, f2.8-4, etc. and I would like to use them if there is an adapter that would be functional. Thank you. I do not know much about the Pentax K mount, but the two adapters that I have found are only made for EF-S mount bodies, despite the fact that the mount was made for 35mm film bodies.

Adapter for Using Pentax K-Mount Manual Lenses on ...

Get yourself any Pentax lenses in your local second hand market with K-mount and discover the fun. Turning the focus ring makes you feel like a pro-shooter! I have a few manual K-mount lenses from Ebay but no M42 ones yet. Mounting the lens is the same as usual but you have to change some settings in your Pentax K-r. See link here:

PENTAX K-r: Using Manual lenses on Pentax K-r.

Older lenses that were manual focus, like the legacy Nikon F-mount lenses, had brilliant optics and control, but no brain. Unlike modern lenses that are 'chipped', they couldn't digitally communicate with the camera, so there was no AF, and couldn't even speak automatically to the cameras to tell them what aperture they were at, and what focal length so metering properly was non-existent.

How To Use Old Legacy Lenses On Your Modern Nikon DSLR ...

What sort of settings would be required to use any manual, (I have some at the moment) lenses, on my K10d. I am going to take shots of and with the lenses that are on another of my topics but I do need a starting point. All help gratefully received.

Manual lenses on a K10d - Pentax User

when using Pentax-A lenses, every thing stays the same as with the F or AF lenses, except you have to set the focal length when switching on and adjust the focus manually, but the auto focus indicator will help. When using any brand M42 lenses, you again set the focal length on switch on.

Using Old Pentax Lenses on Newer Pentax Cameras

Using Pentax manual lenses on Fuji mirrorless Jun 20, 2016 I have a Fuji X-T10 and a cupboard full of lovely old Pentax K and M series bayonet mount lenses (11 primes in 10 different focal lengths). I am pretty sure they could work well together but I have absolutely no idea how to get started.

Using Pentax manual lenses on Fuji mirrorless: Adapted ...

Using manual focus K-Mount lenses on K100D Started Aug 8, 2006 ... Is there no work-around or hack that would let me use, for example, my 200mm f2.5 Pentax Lens in stop-down metering mode? This was and is a great lens, but not at its sharpest wide open. I was dreaming of a 300mm (equivalent) f2.5 SR set-up.
