Villiers Engines—**Engine Design and Manufacturer**

In September 1922 Villiers announced the details of their new 1923 engine range, which included 147 cc, 250 cc and 343 cc engines. These engines featured a radial-finned cylinder head, with both the inlet and exhaust port being at the front of the engine, and they all had the Villiers flywheel-magneto.

Villiers used Roman numerals in quoting mark numbers for most of their engines up to 1945 [Note 2]. A new capacity class, the 172 cc, was brought out in 1924. This was to form the basis of two engines which were to bring world records to a number of companies. The first engine was the Sports Engine (no mark number was allocated to these engines).
