Thirty-six of the best thinkers on family and community engagement were assembled to produce this Handbook, and they came to the task with varied backgrounds and lines of endeavor. Each could write volumes on the topics they address in the Handbook, and quite a few have. The authors tell us what they know in plain language, succinctly presented in short chapters with practical suggestions for states, districts, and schools. The vignettes in the Handbook give us vivid pictures of the real life of parents, teachers, and kids. In all, their portrayal is one of optimism and celebration of the goodness that encompasses the diversity of families, schools, and communities across our nation.

Ranging from a few words to a few pages, the aphorisms in Human, All Too Human present Friedrich Nietzsche's thoughts on a variety of subjects, including the nature of reality (metaphysics); moral feelings, especially the concepts of good and evil; the argument that great art is the product of hard work as opposed to 'genius' and inspiration; free-thinking; the evolution of men, women and children; and the limitations that people put on their own thoughts and reasoning. The first of what became three volumes, Human, All Too Human not only represented a change in style for Nietzsche after the break-up of his friendship with the composer Richard Wagner and his rejection of Schopenhauer's influence, but also a move towards the views of the Enlightenment philosophers, particularly Voltaire and La Rochfoucauld. Human, All Too Human marks Nietzsche's decision to embrace new concepts and a fascinating turning point in the work of one of the 19th century's greatest philosophers.
